

CITY MATTERS.

The funeral services of Rev. Jos. Week, a prominent minister of the Christian church, took place at Yellow Springs today at 2 p.m.

W. S. Newberry, Esq., has removed his office to the old Republic building, Main street. O. B. Williams goes into the former Lagonda bank room.

Rev. Joseph Weeks, a prominent minister of the Christian church, aged seventy-four years, died very suddenly of heart trouble at Yellow Springs, Ohio, last evening.

Miss Nellie Cooper, daughter of Mr. David Cooper, of this city, was married to Mr. Charles F. Snyder, of Dayton, on Thursday, in the Third Street Presbyterian church.

Gen. Boynton, in today's (Friday's) Cincinnati Commercial Gazette, quotes from the reports of the late Col. Sanderson, of this city, made when Provost Marshal in Missouri, to show who were "employed by the rebel steamboat burners."

Rev. C. Stroud and wife have returned from a sojourn of several weeks in New York and Philadelphia. Their fine residence is soon to be supplied with very elegant furniture and carpets from Eastern cities.

While Jacob Reed, an employee of Burnham's livery stable, Mechanicsburg, was washing a car at the creek near the railroad, the team took fright at the cars and ran off, completely demolishing the carriage and breaking Reed's leg and otherwise seriously injuring him.

Rev. A. H. Studebaker, pastor of the First Lutheran church, Harrisburg, Pa. (which has a membership of 800 or over), and chaplain of the State Senate, has been spending a few days here with his parents. He has become one of the leading men of his denomination, and his old friends in Springfield have reason to be somewhat complacent over the way he has risen in the world.

There is a hitch in the Myers-Littler investigation committee as to the report. The two Republicans, Messrs. Stryker and Kohler, are in favor of receding the fact that Myers has grossly violated the rules of the House, and has thereby forfeited his rights as a member, but they do not intend to make any recommendation, leaving action to the discretion of the House. It is possible that Mr. Wells, one of the Democratic members of the committee, may join with the two Republicans in their report. Messrs. Thompson and Brunner, Democrats, are in favor of censuring both Littler and Myers. It is almost certain that two reports will be made.

Fire in a Dry Goods House.
At five minutes to one o'clock this afternoon one of the lady clerks in Kinnane, Wren & Co.'s dry goods store, in the Commercial building, Limestone street, discovered smoking from the stairway leading to the cellar. An alarm was telephoned the Central engine house from which box 15 was keyed in, bringing out the entire department, water being thrown in just three minutes from the time the telephone alarm was given. In fifteen minutes the out-lap was sounded. The fire was in a lot of paper rubbish and sweepings at foot of the stairway in the cellar and extended to some underwear on shelves near by. It seems to have been caused by the droppings and breaking of a lamp suspended over the stairway to light the passage. The damage will not be heavy; \$50 perhaps, and as much from water as fire. The store above was filled with smoke for a few moments, which poured out into the street giving the appearance of a bad fire.

Keifer and Grant.
Gen. J. W. Keifer, of this city, who is now in New York City, and who served in the Army of the Potomac under Gen. Grant, called upon his old commander yesterday and was at once admitted to the General's sick room, where he was met at the door by Gen. Grant and greeted very cordially. He told a reporter, after the call, that the sick man seemed much better than he had expected. His face is round but not bloated and he walks with less trouble than when Gen. Keifer saw him last. Gen. Keifer said further: "He seemed very cheerful, however, and conversed rapidly during my brief stay, on a great many topics. He spoke particularly of his large mail, which averages about one hundred letters a day. He seems to have kept up with his correspondence very thoroughly, and has been apparently greatly delighted with it. He spoke of the letters of sympathy he had received, and especially of those from various military organizations. Some of these seemed to have been drawn up more or less roughly, perhaps, as compared with others of a more official character, but the General said that the plain, honest, heartfelt messages from the people went straight to his heart and gave him more real comfort than all the others combined. The heart of the old soldier was touched by them, and he was evidently cherishing them all very dearly."

Failure of the Mixed School Bill.
The delegation of representative colored men which went to Columbus yesterday in the interest of the Crowell and Little bills, which came up in the Senate that day, returned in the evening unsuccessful in the main object sought, but not despairing of the final issue, and satisfied with their cordial reception by the S. Jones, who manifested and expressed the favorable impression made upon them by the delegation. As reported in the regular account of legislative proceedings elsewhere, the Crowell (Senate) bill was lost by the close vote of 13 to 10, all Republicans in their seats voting for the bill and five Democrats. There was considerable absenteeism, whether or not with intent to "dodge" is not known, of course.

In the afternoon the House (Little) bill came up and there was a hot discussion. The stock arguments, so called, were used against it and the opposition of certain colored teachers, who fear their occupation would be gone if the bill passed, was manifest. It was laid on the table by a vote of 13 to 12, to be called up at any time, and Senator Crowell gave the Springfield people his word that he would use his best endeavors to have it come before a full Senate before the Legislature adjourned, probably May 4. It is said some Democrats who voted in the affirmative in the House, now declare they only did so to influence the colored vote, which the spring elections show was "influenced" worth a cent, and now they are sorry they did it.

EXTRA HIGH TOPS!

SOMETHING NEW.

The attention of parents is invited to a full line of Button Shoes for youths, made of best calf, with heavy soles, and having Glove Kid Tops of extra length, being about four buttons higher than the ordinary high top shoes, with worked button holes and in all respects of first-class custom-make, just received. This is the best and most substantial shoe for youths we have ever shown. It is very dressy and stylish and will stand almost any amount of hard wear. Parents will find that this shoe meets all the requirements of a model shoe. Do not fail to see them

ROUSE & PARSONS, 26 S. MARKET ST.

SPRINGTIME WEDDING BELLS.

Marriage of Dr. J. E. Studebaker and Miss Elvora Perrin, Last Evening—Bridal Reception This Evening.

The marriage of Dr. John Perrin's daughter, Elvora, and Dr. J. E. Studebaker, took place last night at the residence of the bride's father, a short distance south of town. The ceremony was performed at 8 o'clock, a brother of the doctor, the Rev. Albert H. Studebaker, of Harrisburg, Pa., officiating. The old Lutheran ring ceremony was used. The bride was dressed in Havana colored silk, with flowered front, trimmed with Spanish lace and natural flowers. About one hundred and twenty-five friends and relatives of the contracting parties were present, a number of the guests coming from a distance. Amongst these were the Rev. Albert H. Studebaker, Dr. Green, of Wilmington, Del., and Mr. and Mrs. G. Gaumer, of Urbana. The bride and groom took for wedding trip, but went at once to the residence of Mr. A. Studebaker, on West High street, where they will make their home for the future, and where they will hold their reception tonight. The list of wedding presents is large and embraces the usual variety of useful and ornamental articles. The following is a partial statement of the presents:

A dozen silver knives and forks, set of silver teaspoons, John Perrin; etched china tea set, Mr. and Mrs. A. H. Studebaker; dinner set, Mr. and Mrs. A. Studebaker; cake basket, Mr. and Mrs. E. N. Lupter, Geo. Lupter and Garrett Billow; individual set, Mr. and Mrs. Jacobs; pickle canister, Mr. and Mrs. J. Mellinger; silver spoon holder, Mr. A. E. Perrin; napkin-holders, the Misses Slaughter; whisk and holder, Miss Alice Gaumer; combination set, the Misses Paige; cake basket, William, Emma and Lizzie Anderson; two ottomans, Mr. and Mrs. G. Gaumer; fancy clock, Mrs. Mary Studebaker and Mrs. Pugsley; crystal water set, Miss Elsie Jones; water jug, Mr. and Mrs. John Stewart; set of silver teaspoons, Mr. J. E. Studebaker; silver butter knife, Mr. and Mrs. Robert; hand-painted tambourine, Mr. John Perrin, and china bed-room set, Miss Mary Anderson.

The MacGonigal-Ramsay Wedding.

The residence of R. H. Ramsay, Esq., No. 64 East Ninth street, Covington, Kentucky, was the scene of a pretty marriage ceremony yesterday afternoon. It being the marriage of his daughter, Miss Augusta G. Ramsay, to Mr. John MacGonigal, of Springfield, Ohio. The ceremony was performed in the parlor of the residence, which was tastefully and artistically decorated with flowers and evergreens and tropical plants, and as the impressive words pronouncing the marriage fell from the lips of the Rev. Dr. Charles Taylor the bride and groom stood beneath a canopy of flowers. Immediately after the couple received the congratulations of those present, and the guests were invited to dinner. The bride, who is the only daughter of Ex-President Ramsay, of the School Board, is one of Covington's most amiable and sweet and lovely girls. She is highly cultivated, and her accomplishments are numerous, and the groom can well feel proud of the prize he has won. She was dressed in a lovely traveling suit of electric-blue velvet, and wore a hat to match, and her ornaments were diamonds, the gift of the groom. The groom is one of the managers of the Arcade Hotel of Springfield, Ohio, and one of the promising young business men of that city. The illustration of the popularity of the bride was plainly visible by the numerous presents that were sent her as tokens of esteem from admiring friends and relatives. These were numerous and elegant. That of the groom to the bride was a beautifully wrought diamond pin, and that of the bride's mother was a handsome watch; and noticeable among the rest was a basket of magnificent Florida oranges from the bride's aunt, Mrs. James H. Collins, of Orange Springs, Fla. Among those present were Mrs. W. A. Williamson, Miss Sadie Williamson, of Wilmington, Del.; Mr. and Mrs. John M. Carey, Miss Ella Myers and Mr. William E. Webb, of Springfield, Ohio; Miss Jessie Hower, Mrs. William Metcalf, Mrs. M. Hearn, of Cincinnati, and others. The occasion will be a memorable one, from the fact that it was the celebration of the twenty-fourth anniversary of the marriage of Mr. and Mrs. Ramsey, parents of the bride. Mr. and Mrs. MacGonigal left last evening on the P. & O. St. L. road for Baltimore, where they will spend some time visiting the relatives of the former. They go thence to Dover, Wilmington and other places of interest, previous to returning to their future home in Springfield. The young bride will bear to her new home the good wishes of a wide circle of friends.

A Card.

To the Editor of the Globe Republic:
We take this method of making public an expression of our sincere thanks to the members of the Springfield Fire Department for their prompt and efficient service rendered us this afternoon. Such marvelous speed and effective work entitles them to stand without a rival among the fire departments of the State.

CHARLES RABBITT.

KINNAE, WREN & CO.

George Pieter's house, at the south end of South Charleston, was destroyed by fire this afternoon. He saved all the furniture. He was insured by the Cooper Insurance Company for \$500, about the value of the property. Caught by a defective flue or sparks falling on the roof.

THE HALF-BREEDS.

The Object in Capturing Fort Pitt was to Secure the Arms and Ammunition of the Police.

A Skirmish Between Middleton's Scouts and the Rebels—Battle With the Forces Expected To-Day—Communication Interrupted.

THEY WANT ARMS AND AMMUNITION. BATTLEFIELD, N. W. T. April 24.—Mr. Leonard of the Hudson Bay Company, who left Fort Pitt the day before the battle, has a party with the Indians. They told him they only wanted to kill the police and take their arms and ammunition. The Indians numbered about 250. They are located at Onion Lake, near Fort Pitt. Big Bear, like the rest of the Cree, brought up from Cypress Mountain, has done little else all winter but prow around the agency and make all the trouble he could. He, it was, who instigated them to rise and attack the police.

QU'APPELLE, April 24.—A skirmish took place Wednesday between Middleton's scouts and a small party of rebels. The latter fired first and the scouts returned the fire. The first shot was wounded on either side. The half-breeds took shelter in the woods. Wednesday, April 23.—No further details of the fight between Inspector Dickson's men at Fort Pitt and the Indians have been received. Both columns, immediately under General Middleton's orders, were ordered to start from Clarke's Crossing yesterday.

T. Davis, a Prince Albert stock-keeper, who has just arrived here, reports over a thing well except a shortage of flour. He also says that Charles Hewitt, reported killed, is not dead. He was wounded slightly.

Nolin, one of Riel's counselors, is now a prisoner in Prince Albert. Orders have arrived from General Middleton calling to the front the Seventh Fusiliers of London, the Queen's Own Rifles, the 4th and 6th regiments of the Queen's Own Rifles, and the 1st and 2nd regiments of the Queen's Own Rifles.

OTTAWA, Ont., April 24.—The Government yesterday received a dispatch from Colonel Williams in command of the Midland Battalion, twenty miles from Fort Pitt, stating that he was going forward by boat to Clarke's Crossing at once to join General Middleton's division. He left two companies at Swift Current to defend that point. General Middleton telegraphed from Clarke's Crossing that he commenced his march forward on Saturday's Crossing and will probably encounter the insurgents to-day. This, he says, is Riel's stronghold and if there is to be any fighting done it will probably take place here.

He estimates Riel's direct following at 500 men, although he states that others place it as high as 1,500. The rebels have dug rifle-pits all along the line of march, and will seek shelter in these and fire on the advancing troops and then retire to the next cover.

The official report from Battleford states that a settler named Smart was shot by Indians Wednesday night while on patrol duty, but that no further attempt was made against the imprisoned settlers. The Indians, however, burned two of the Hudson Bay Company's stores in the town, one a half-mile from the town, and one a mile from it. They escaped from Fort Pitt report that they have no confirmation of the Frog Lake massacre.

Vendor Seized for Supplying Arms to the Insurgents.

NEW YORK, April 24.—Captain John O'Brien, commander of the steamer City of Mexico, was arrested by a Deputy United States Marshal yesterday on a charge of violating section 5283 of the United States statutes, by supplying arms and ammunition to war to the insurgents of a country at peace with this Government. The steamer was seized and is now in the possession of the Federal authorities. Her manifest shows that her cargo consisted of lumber, but in reality she was loaded with firearms and ammunition for the insurgents of the United States of Columbia. The "City of Mexico" is owned by Lord & Austin of this city, and was chartered by agents of the insurgents here at \$400 a week. Captain O'Brien of this city, and was charged by agents of the insurgents here at \$400 a week. Captain O'Brien of this city, and was charged by agents of the insurgents here at \$400 a week.

Successful After Many Attempts.

BROCKTON, Mass., April 24.—The death yesterday of Andrew J. Lawson, a Swede, at Campbell, who was ascribed to heart disease, proves to be a case of suicide. A manuscript in Swedish, covering twenty-seven foolscap pages, has been found under Lawson's effects, describing many ways in which he had previously tried to kill himself. These include shooting, hanging, poisoning, eating ice while heated, trying to catch cold in order to get pneumonia, etc. The manuscript states that Lawson's mother tried to drown herself a month before he was born because his father had come home drunk. Lawson's first attempt on his life was by drowning in a ditch when very young. His last and successful attempt was made with "rough on rails," mixing it with honey and taking repeated doses of it.

Denver, April 24.—Between seven o'clock

Wednesday evening and noon yesterday, about twenty inches of very wet snow fell here. The storm extended over an area of one hundred miles and caused damage of \$30,000 in this city to the amount of \$30,000. The streams are rising rapidly. The snow is an immense weight on stock ranges and will give grass a good start.

Investigating the Shipment of Hogs.

SPRINGFIELD, Mass., April 24.—A carload of 121 hogs shipped from Indianapolis five days ago, consigned to a packing firm in this city, was received yesterday morning in a terrible condition, thirty-eight of them being dead. The agent of the Society for the Prevention of Cruelty to Animals is investigating the case.

Fire at Akron, Ohio.

AKRON, April 24.—A fire in Haushalter & Tinsal's jewelry store yesterday morning caused a loss of \$8,000 on stock and \$5,000 on building and adjacent store and rooms and stock. Insurance \$7,500.

Convinced.

Mr. U. G. Kopp, formerly of the Leontia Democrat, Leontia, Ohio, writes: "Dr. S. B. HARTMAN, Columbus, Ohio, Gentlemen: Some time since, I had occasion to doubt the genuineness of most of the articles that appeared in your paper, and I thought you would be glad to receive a number of doctors, all to no effect. I was determined to write to one of the many people that claimed to have been cured by this medicine, and accordingly wrote to Mrs. J. W. Reynolds, of New Lisbon, this county, and received the following reply: 'I received your letter this evening, and in reply would say that PERUNA, I believe, saved my life, and I can not recommend it too highly; for all complaints it is the best medicine in existence. I would advise any one suffering from my complaint to take PERUNA and be convinced. Yours truly, Mrs. J. W. Reynolds.' Now, that's her card, word for word, and as I am well acquainted with the lady, I do not believe she would lie. It is truly wonderful how your medicine does good. James L. Mooney, Prospect, Ohio, writes: 'For the past ten years I have been suffering from constipation and dyspepsia, and all the evil effects that accompany them. I was treated by a number of doctors, all to no effect. I used several patent medicines, which did me no good, and about three years ago I was seized with a severe nervous trouble, and was obliged to quit farming. I thought my days would soon be over, but last winter I received one of your pamphlets called the 'Ills of Life.' I at once tried your PERUNA and MANALIN. They helped me right away. I used nine bottles of PERUNA and three of MANALIN, and now I am quite well, and able to resume farming. I also had a little child which was attacked with a severe cramp in the stomach, we thought it would go into spasms. I used nothing but PERUNA. We gave it an injection of PERUNA, and warm water, and gave it a teaspoonful of the medicine internally every half hour. It was relieved in one hour, and has not been bothered since. I have also used it with a good effect in a case of croup and colds. I know that it is a wonderful medicine, and recommend it to all who are in poor health. The above statement I am willing to swear to.' W. M. Plants, Deep Valley, Greene county, Pa., writes: 'Please send me your book on the 'Ills of Life.' I have used one bottle of PERUNA, and am greatly benefited.'"

A well-known Plymouth county physician, who was not always as well off as he is to-day, had hard work of it to manage his way through the Harvard Medical School. He says that when he came up to his examinations at the close of the course he felt especially shaky on the subject of anatomy. His examiner was Oliver Wendell Holmes, who, as it happened, had just published a magazine article on phrenology, and was as a fraud. The first question he asked the student was "What do you think of phrenology?" "Well," the young man replied, "I thought a good deal of it until I read an article a few days ago, which convinced me that it was all nonsense." "Did you read that article?" said Holmes quickly; and then he went to talking about phrenology, and never asked that shrewd young man another question.

A safety paper manufactured by a Massachusetts mill will make it difficult for any one to tamper with bank notes or checks printed on it. The coloring matter of the paper is so prepared that the application of any chemical to remove the ink will permanently change the color of the paper, and an ingenious device is added which betrays at once any attempt to make an erasure. Between the two enterprises forger will be sure to come to grief.
